

FOR IMMEDIATE RELEASE:

Yorkville Sound Unveils All New Compact Complete PA Solution Just In Time for 2015 Winter NAMM Show.

Toronto Ontario, December 17, 2014 – Yorkville Sound delivers an ultra compact, extremely versatile and scalable all-in-one PA solution ideal for virtually any live sound application.

The all new Yorkville Sound Excursion EXM400 Compact PA is a 400 watt, four channel Bluetooth enabled active stereo system built with mobile live sound in mind. Lightweight compact extension speakers, innovative pole-through connectivity and versatile input / mixer functions ensure the EXM400 can easily be used in small solo or duo performances, DJ applications, conferencing and public address functions.

Designed for maximum mobility, the center of the EXM400 is a compact powered subwoofer module with integrated mixer. Two high efficiency satellite speakers and two speaker poles complete the core package. Connectivity between subwoofer / mixer and satellite speakers is handled with innovative pole through conductors, meaning no extra cabling is required.

Integrated 24-bit digital effects ensure the EXM400 can be used for live musical performances without need of cumbersome external signal processing. A padded nylon carry bag is included with the package to maximize user convenience.

A dedicated Bluetooth channel means direct connection of any Bluetooth enabled audio device for music playback can be made without additional cables. This makes the EXM400 the ideal compact high fidelity conferencing / presentation and public speaking system.

Built in Canada, the new Yorkville Sound Excursion Series EXM400 Compact PA Solution will have a projected US MAP price of \$999.00 and be shipping first quarter 2015.

EXM400 – 400 Watt Program Compact Mobile PA – MSRP US \$1399.00 / MAP \$999.00
